## Horizon's August Open Surgery in Cemaes

---

Horizon Nuclear Power will hold its next monthly Open Surgery on Monday 19 August at the village hall in Cemaes. The events give local people the opportunity to call in and ask questions about the proposed new nuclear power station on Anglesey.

Horizon's project team will be available between 1pm and 7pm, and no appointment is needed.

The proposed new nuclear power station at Wylfa will create 1,000 permanent jobs over many decades to operate the plant and will require a peak workforce of up to 6,000 during the construction phase.

Alan Smith, Head of Site Development at Horizon Nuclear Power, said: "We were very pleased to be at the Anglesey Show last week for our fifth year running. Anyone who couldn't call in to our marquee to meet us at the show is very welcome to pop along to our next regular monthly event which is taking place in Cemaes in August. Members of our team will be on hand to answer questions and listen to feedback."

Horizon's project team can also be contacted via a Freephone hotline on 0800 954 9516 or by email at [wylfaenquiries@horizonnuclearpower.com](mailto:wylfaenquiries@horizonnuclearpower.com).

**Notes to editors:**

- Horizon Nuclear Power was formed in 2009 to develop new nuclear power stations in the UK. The company was acquired by Hitachi Ltd of Japan in November 2012 from previous joint owners RWE npower and E.ON UK.
- Hitachi-GE Nuclear Energy, Ltd., (Hitachi-GE) is the technology provider and 'delivery team' leader for Horizon's developments at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Hitachi-GE is owned 80.01% by Hitachi Ltd and 19.99% by GE.

- Horizon's developments at Wylfa and Oldbury will represent multibillion pound investments in the UK's infrastructure. Each is expected to create up to 1000 jobs during operation, and around 6000 during the peak construction phase,.
- Horizon holds grid connection agreements and owns land suitable for the development of new nuclear power stations at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Both sites are nominated for nuclear development under the National Policy Statement for Nuclear (EN-6).
