## Horizon announces February Open Surgery details

**Horizon Nuclear Power's February Open Surgery will be held at the Village Hall, Cemaes on Monday 17 February.**

These popular monthly community events give local people the opportunity to call in any time between 1pm and 7pm to discuss Horizon's Wylfa Newydd project with members of Horizon's project development team. No appointment is necessary.

Richard Foxhall from Horizon said: "We were very pleased with the attendance at our January Open Surgery, and we'll continue with our programme of community engagement leading up to our first stage of formal public consultation later in the year. As always, members of our project development team will be in attendance on Monday to chat to people about Wylfa Newydd, and listen to their feedback. If anyone has any questions, please pop in and meet the team."

Horizon's Wylfa Newydd nuclear power station will create around 1,000 permanent jobs over the many decades that the plant will be in operation and will require a peak workforce of around 6,000 during the construction phase. There will also be significant opportunities for local businesses to play a part in the project.

More information about Horizon's plans and current job vacancies can be found on its website - [www.horizonnuclearpower.com](http://www.horizonnuclearpower.com) – and the project team can be contacted via a Freephone hotline on 0800 954 9516 or by email at [wylfaenquiries@horizonnuclearpower.com](mailto:wylfaenquiries@horizonnuclearpower.com).

**Notes to editors:**

- Horizon Nuclear Power was formed in 2009 to develop new nuclear power stations in the UK. The company was acquired by Hitachi Ltd of Japan in November 2012 from previous joint owners RWE npower and E.ON UK.
- Hitachi-GE Nuclear Energy, Ltd., (Hitachi-GE) is the technology provider and 'delivery team' leader for Horizon's developments at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Hitachi-GE is owned 80.01% by Hitachi Ltd and 19.99% by GE.
- Horizon's developments at Wylfa and Oldbury will represent multibillion pound investments in the UK's infrastructure. Each is expected to create up to 1000 jobs during operation, and around 6000 during the peak construction phase.
