Horizon holds September Open Surgery in Cemaes

Horizon Nuclear Power will hold its next monthly community event on Monday 16 September at Cemaes Village Hall.

Part of the company's popular monthly Open Surgery series, the event allows local people to call in and ask questions about the proposed new nuclear power station at Wylfa.

Horizon's project team will be on hand between 1pm and 7pm.

Alan Smith, Head of Site Development at Horizon Nuclear Power, said: "Our August Open Surgery was very well attended, and it was great to see new faces and answer questions about our project. If you'd like to find out more about our work or pass on any feedback please pop along and meet the team."

The proposed new nuclear power station at Wylfa will create around 1,000 permanent jobs over many decades to operate the plant and will require a peak workforce of up to 6,000 during the construction phase.

More information about Horizon's plans and current job vacancies can be found on its website - www.horizonnuclearpower.com - while its project team can be contacted via a Freephone hotline on 0800 954 9516 or by email at wylfaenquiries@horizonnuclearpower.com.

Notes to editors:

- Horizon Nuclear Power was formed in 2009 to develop new nuclear power stations in the UK. The company was acquired by Hitachi Ltd of Japan in November 2012 from previous joint owners RWE npower and E.ON UK.
- Hitachi-GE Nuclear Energy, Ltd., (Hitachi-GE) is the technology provider and 'delivery team' leader for Horizon's developments at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Hitachi-GE is owned 80.01% by Hitachi Ltd and 19.99% by GE.
- Horizon's developments at Wylfa and Oldbury will represent multibillion pound investments in the UK's infrastructure. Each is expected to create up to 1000 jobs during operation, and around 6000 during the peak construction phase,.
- Horizon holds grid connection agreements and owns land suitable for the development of new nuclear power stations at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Both sites are nominated for nuclear development under the National Policy Statement for Nuclear (EN-6).
