Horizon to hold next drop-in event in Llangefni

Horizon Nuclear Power will hold its next community drop-in event on Monday 18 November at The Bull Hotel, Llangefni.

Part of the company's monthly series of Open Surgery events, local people can drop in at any point between 1pm and 7pm to ask questions about the proposed power station project at Wylfa.

Alan Smith, who heads up site development at Wylfa for Horizon, said: "Our team will be on hand to chat to local people so we hope this event will prove as popular as past sessions in Llangefni. We always welcome the chance to answer questions and hear feedback face to face so I'd encourage anyone who'd like to know more about our work at Wylfa to pop along."

Horizon's new nuclear power station at Wylfa will create around 1,000 permanent jobs over many decades to operate the plant and will require a peak workforce of up to 6,000 during the construction phase. There will also be significant opportunities for local businesses to play a part in the project.

More information about Horizon's plans and current job vacancies can be found on its website - www.horizonnuclearpower.com - while its project team can be contacted via a Freephone hotline on 0800 954 9516 or by email at wylfaenquiries@horizonnuclearpower.com.

Notes to editors:

- Horizon Nuclear Power was formed in 2009 to develop new nuclear power stations in the UK. The company was acquired by Hitachi Ltd of Japan in November 2012 from previous joint owners RWE npower and E.ON UK.
- Hitachi-GE Nuclear Energy, Ltd., (Hitachi-GE) is the technology provider and 'delivery team' leader for Horizon's developments at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Hitachi-GE is owned 80.01% by Hitachi Ltd and 19.99% by GE.
- Horizon's developments at Wylfa and Oldbury will represent multibillion pound investments in the UK's infrastructure. Each is expected to create up to 1000 jobs during operation, and around 6000 during the peak construction phase.
