

NEWS RELEASE

IMMEDIATE RELEASE
Monday 10 March 2014

Date and location for Horizon's March Open Surgery announced

Horizon Nuclear Power's next Open Surgery will be held at The Bull Hotel, Llangefni on Monday 17 March.

With members of Horizon's project development team available between 1 pm and 7 pm, these monthly community events give local people the opportunity to discuss the Wylfa Newydd project without needing to book an appointment.

Richard Foxhall from Horizon said: "Our Llangefni Open Surgeries are always popular events, and this will be our first visit to the town in 2014 so we're expecting a good turnout. Ahead of our first phase of formal consultation later this year, we'll continue to hold our Open Surgeries so people can keep up to date with the Wylfa Newydd project."

Horizon's Wylfa Newydd nuclear power station will create up to 1,000 permanent jobs over the many decades that the plant will be in operation and will require a peak workforce of up to 6,000 during the construction phase. There will also be significant opportunities for local businesses to play a part in the project.

More information about Horizon's plans and current job vacancies can be found on its website - www.horizonnuclearpower.com – and the project team can be contacted via a Freephone hotline on 0800 954 9516 or by email at wylfaenquiries@horizonnuclearpower.com.

Notes to editors:

- Horizon Nuclear Power was formed in 2009 to develop new nuclear power stations in the UK. The company was acquired by Hitachi Ltd of Japan in November 2012 from previous joint owners RWE npower and E.ON UK.
- Hitachi-GE Nuclear Energy, Ltd., (Hitachi-GE) is the technology provider and 'delivery team' leader for Horizon's developments at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Hitachi-GE is owned 80.01% by Hitachi Ltd and 19.99% by GE.
- Horizon's development at Wylfa will represent a multibillion pound investment in North Wales. It is expected to create up to 1000 jobs during operation, and up to 6000 during the peak construction phase.
