Horizon confirms April Open Surgery date and venue

Horizon Nuclear Power returns to the Village Hall, Cemaes for its Open Surgery on Monday 14 April.

These popular monthly community engagement events, which run as an open forum between 1 pm and 7 pm, give local people the opportunity to discuss the Wylfa Newydd project directly with members of Horizon's development team.

Richard Foxhall from Horizon said: "With our current phase of Ground Investigation works now well underway, there is a very noticeable increase of activity on the Wylfa Newydd site. The Open Surgery is an ideal way for local people to find out more about the work underway, or to ask any questions they may have regarding the project.

"We are preparing for our first phase of formal consultation later this year and will continue to hold our Open Surgeries so that local people can keep up to date with the Wylfa Newydd project. I'd like to extend a warm invitation to anyone who has any questions to call in and meet the team."

Horizon's Wylfa Newydd nuclear power station will create up to 1,000 permanent jobs over the many decades that the plant will be in operation and will require a peak workforce of up to 6,000 during the construction phase. There will also be significant opportunities for local businesses to play a part in the project.

Notes to editors:

- Horizon Nuclear Power was formed in 2009 to develop new nuclear power stations in the UK. The company was acquired by Hitachi Ltd of Japan in November 2012 from previous joint owners RWE npower and E.ON UK.
- Hitachi-GE Nuclear Energy, Ltd., (Hitachi-GE) is the technology provider and ‘delivery team’ leader for Horizon’s developments at Wylfa on the Isle of Anglesey and Oldbury-on-Severn in South Gloucestershire. Hitachi-GE is owned 80.01% by Hitachi Ltd and 19.99% by GE.
- Horizon’s development at Wylfa will represent a multibillion pound investment in North Wales. It is expected to create up to 1000 jobs during operation, and up to 6000 during the peak construction phase.
- More information about Horizon’s plans and current job vacancies can be found on its website - www.horizonnuclearpower.com – and the project team can be contacted via a Freephone hotline on 0800 954 9516 or by email at wylfaenquiries@horizonnuclearpower.com.
