Horizon helps 1st Menai Bridge Scout Group

1st Menai Bridge Scout Group secures funding from Horizon to buy new minibus.

Menai Bridge Scout Group applied to Horizon Nuclear Power's charitable donations scheme to help them buy a new minibus.

Having had use of an older, smaller minibus for three years, the group wanted a new vehicle for its upcoming visit to Belgium and so they could organise more weekend and evening activities. The new bus was important for the group to make a trip to learn about the role of Anglesey's scouts in the First World War.

Committed to supporting educational activities, Horizon was proud to make a donation, and with further contributions from other organisations, including Dale Street Trust, Leslie Sell Charitable Trust and National Grid, the group hit their funding target. The new bus has been delivered and the group is on the road again.

Mrs Jo Quinney, Group Scout Leader, said: *"Our new mini bus is amazing and perfect for taking all our young people out on challenging adventures. We have over 100 youth members here at 1st Menai Bridge Scout Group, including Beavers, Cubs, Scouts and Explorers, supported by numerous dedicated adult volunteers. We would like to thank Horizon for contributing towards the cost of our bus and supporting our fun, challenges and adventures."*
